

PROFILE

Sherrie Schmidt, a retired elementary teacher, enjoyed being creative in the classroom to make each day a happy day. She believed that if children loved to come to school, they would learn! Using children's books as a basis for all subjects taught, the students became more engaged when the lesson would relate to the story. Her first book, *The Seashell Safe Harbor, Be Happy*, was inspired by her love of the coastal life, being happy, and finding the courage to pursue her dream of writing children's books.
